PROFESSIONAL SUMMARY

Software Engineer with experience building production-grade web applications, automation systems and API-driven platforms mainly using TypeScript, NestJS, Angular, FastAPI, and SQL/NoSQL databases. I value clean architecture and write clean, and maintainable code. 5+ years building software through professional work, client projects, training, and personal projects, with 1+ year in formal software engineering roles.

PROFESSIONAL EXPERIENCE

System Developer / Acting Tech Lead

Geoplan PH Inc. | March 2026 – Present

- Lead a team of 4 developers by defining technical direction, breaking down tasks, implementation quality, and feature delivery.
- Build and maintain full-stack application features using TypeScript, Angular, NestJS, PostgreSQL, and REST APIs
- Design system architecture, database models, API contracts, and implementation plans for production-grade web applications.
- Coordinate delivery priorities across client requirements, developer capacity, and production timelines.

System Developer

Geoplan PH Inc. | June 2023 - May 2024

- Developed and maintained full-stack web applications for internal systems, and client requirements, using TypeScript, AngularJS, NestJS, and PostgreSQL.
- Participated in daily scrum meetings and experienced project management methodologies, including both agile and waterfall approaches.
- Contributed to hardware and software R&D initiatives within the company.
- Mentored two interns during their internship on TypeScript, AngularJS, NestJS, and PostgreSQL.

CORE SKILLS

Primary Stack: TypeScript, JavaScript, NestJS, Angular, PostgreSQL, REST APIs

Relevant Skills: React, Next.js, Tailwind CSS, Motion, Lenis, Posthog, Python, FastAPI, MySQL, MongoDB, System Design, Clean Architecture, Database Design

AI-Assisted Development: Agentic coding workflows, Rapid prototyping of POC and internal systems

Soft Skills: Adaptability, Time management, Multi-tasking, Decision making, Problem solving

AWARDS

NCR Regional Skills Competition - Web Technologies **Silver Medalist**

Kodego **Top Student**

ACE GABRIEL P. PASILIAO

SOFTWARE ENGINEER | NESTJS | ANGULAR | POSTGRESQL

NOTABLE PROJECT

Attendify v2 - Production Attendance & Face Recognition System

- Built and maintained a production-grade face recognition attendance system that is used by our church since Oct 2024 - present.
- Processed 16,000+ attendance logs and managed 2,400+ registered profiles as of 2026.
- Designed the full-stack architecture using Angular, NestJS, FastAPI, Docker, and PostgreSQL
- Repository: [attendify-frontend](#)

TRAINING EXPERIENCE

NCII Computer System Servicing

TESDA | Jun 2025 - July 2025

- Completed 280-hour technical training in computer systems installation, configuration, maintenance, and troubleshooting.
- Configured computer systems, network cabling, client-server setups, and remote desktop administration.
- Gained hands-on experience in basic server management, LAN setup, hardware diagnostics, and system support

Full Stack Web Developer Bootcamp

Kodego | Dec 2022 - March 2023

- Completed 320-hour intensive full-stack web development bootcamp covering frontend, backend, APIs, databases, version control, and basic deployment.
- Built web applications using HTML, CSS, JavaScript, Bootstrap, React, PHP, MySQL, MongoDB, and Laravel.
- Recognized as a Kodego Top Student for strong technical performance and project output.

EDUCATIONAL BACKGROUND

Bachelor of Science in Information System

AMA University | 2023 - 2026

TVL - Information Communication Technology (SHS)

AMA University | Completed in 2023

- Graduated with Honors.
- Built a foundation in programming specifically Java and Object Oriented Programming.
